Paolo is the production manager of Abete Srl, an Italian company producing furniture thanks to its skilled operators and machines.

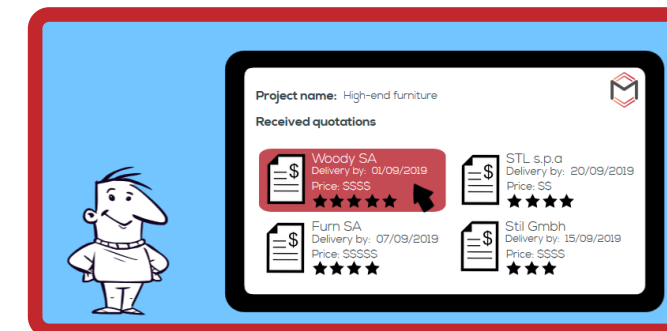

Paolo reports: "During June 2019 we received a lot of orders, which, due to our limited resources, we're not able to manage.

FORTUNATELY WE KNEW MANUSQUARE!!! "

Paolo easily accessed to the platform and created a request for quotation requiring for wood cutting and assembly.

After a week, Paolo received 4 quotations from different suppliers distributed around Europe. He decided to rely on Woody SA located in Switzerland, capable to satisfy his needs, and with a good reputation on the platform.
